Nature's Balanced Nutrients™

T&O N-P FREE™
ALL NATURAL PLANT NUTRIENT

0-0-2
32 FL oz (946 ml)
Net Weight 2.33 lbs. (1.06 kg)

OCEAN SOLUTION™
T&O N-P FREE™

OceanSolution T&O Premium™ is for use on Turf, Shrubs, Trees, Ornamentals, Flowering Plants, and Vegetable Gardens. When properly diluted, it is safe for use on all plant types including your indoor potted plants.

OceanSolution T&O N-P Free™ is a liquid nutrient that has been specifically formulated to supplement annual fertilizer programs when there may be ordinances banning or restricting the use of Nitrogen and/or Phosphorus fertilizers. OceanSolution is an ALL NATURAL nutrient for plants that is comprised completely from natural material. Through a proprietary and patented method we combine an unornamented fermented product with harvested nutrients (i.e. potassium chloride) from deep ocean water.

Directions of Use: Stir or shake well before using; Keep agitated during application.

Apply 2-3 ounces of OS T&O Premium™ in .5 gallon to 5 gallons of water per 1,000 square feet. Retreat every 4 weeks throughout the growing season. (For further information regarding this product, or any other OceanSolution™ product, visit us at www.oceansolution.com.)

Applications may be applied by all customary spray techniques and equipment. OceanSolution™ is compatible with most insecticides, fungicides, and other soluble fertilizers and micro-nutrients. When tank mixing OceanSolution™ with other products, observe all precautions and limitations on each separate product label. Standard Jar testing should precede any mixing and application to insure compatibility.
